FALL 2023

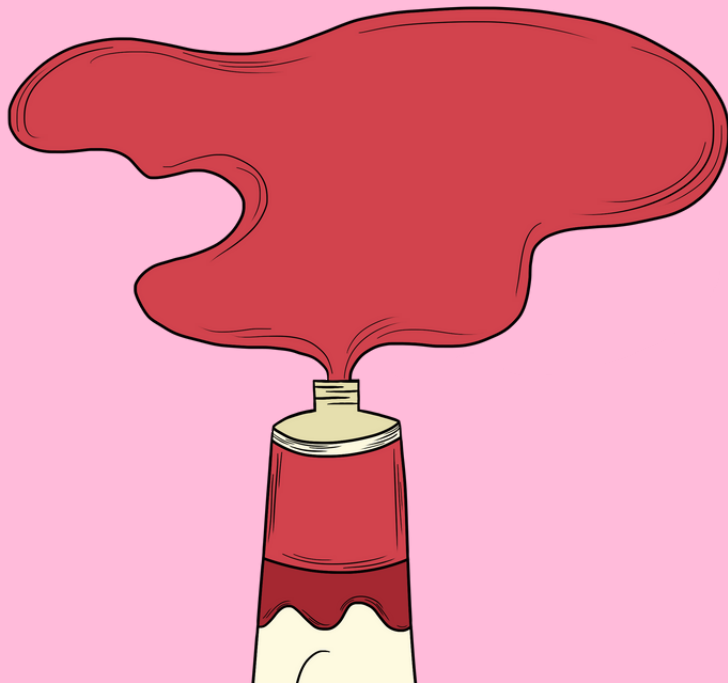

**YOUR INSTRUCTORS
GUSTAVO
JULES**

Field Trips & TECH Check

Our crew will be venturing to local spots to see public art, murals and museums throughout the year. Parents/Guardians will be informed before the trips are taken place.

TECH

NO phones are allowed to be used during programming. Each time students put their phone away (for the entirety of class) a pompom will be added to the magic pompom jar; equally magic prizes....

ORIENTATION FALL 23

Welcome to MMA Middle School Arts Programming.

On Monday & Wednesdays our instructors meet with groups of 6-8th graders.

The two groups will rotate through different mediums every 6-7 weeks.

We'll be exploring ceramics, public art, printmaking, designing community art projects, taking adventurous art field trips and using our sketchbooks and personal art tools all along the way!

HOME BASE & EXPECTATIONS

Middle school students will have classroom space in either the print studio, or ceramic studio (depending on their scheduled session). Sketchbooks and toolkits are stored together in the print studio.

As the oldest students in MMA arts afterschool, our team expects middle school aged students to be respectful of themselves, their peers and instructors.

During orientation students and teachers will discuss what they believe the classroom expectations should be.

What's in your tool kit?

Every middle school student has their own tool kit with art supplies specifically curated for them.

Throughout the year new tools will be introduced to be included in your kit. The kits live in the print studio along with your sketchbooks.
